SUMMARY

Strategic and product-focused professional with an Integrated **B.Tech (CSE) + MBA background**, specializing in bridging the gap between complex data and user-centric digital solutions. Proven experience in leading products from ideation to reality, leveraging AI agent frameworks to accelerate development cycles and team productivity. Skilled in market research, financial modeling, and cross-functional leadership, with a track record of success in **national-level product management competitions** at premier institutes like **IIT Delhi** and **IIT BHU**.

PROFESSIONAL EXPERIENCE

- QKS Group, Analyst**

Jun 2025 - Present

 - Led the Sustainability domain; analyzed Scope 1, 2, & 3 emissions and CSRD/EU regulations to provide strategic market intelligence.
 - Benchmarked 45+ SaaS solutions across ESG, Energy, and Carbon Management, scoring capabilities of market leaders like Johnson Controls and ABB.
 - Delivered 4 Spark Matrix™ reports mapping 45+ tech vendors to define competitive positioning and emerging industry trends.
- Founder, Raahi (Exclusive Mobility Network)**

Dec 2025 - Present

 - Founded and scaled Raahi from a solo concept to a cross-functional team of 8 members, leading end-to-end development of a tech-mobility platform to disrupt daily commuting.
 - Spearheaded the Product & Tech verticals to build the MVP, engineering a 7-month strategic roadmap focused on rapid feature scaling and market entry.
 - Orchestrated Finance and Marketing strategies, including the development of a pitch deck for Incubators, to align technical milestones with incubation and growth goals.
- GTM Analyst, Jai Kisan**

Mar 2026 -Present

 - Leading the Go-To-Market (GTM) strategy for CredServ, a trade receivables automation platform; engineered Drishti, an autonomous scouting agent that single-handedly aggregated a database of 200,000+ distributors.
 - Developed a Distributor Heat Map to visualize Account Receivables (AR) density, integrated with Manthan, an AI agent that performs sentiment analysis on qualitative data to automate lead prioritization and follow-up workflows.
 - Optimized the sales cycle by automating data mining and analysis, shifting team focus to high-conversion activities, including strategic distributor meetings and industry expos to drive product adoption.
- Finance Intern , Gujarat Narmada Valley Fertilizers & Chemicals Ltd.**

 - Managed end-to-end financial workflows (Taxation, AR/AP, Budgeting) using SAP for data reconciliation and tracking raw material costs.
 - Supported the March financial year-end closing, assisting in statutory reporting and auditing during a critical industrial fiscal cycle.
 - Conceptualized an agentic AI software solution for internal auditing to automate anomaly detection and streamline routine financial verifications.

PROJECTS

- Astra (A Personal Finance App)**

 - Built a finance app using Flutter & Firebase for transaction tracking and data capture.
 - Designed workflows for automated reconciliation and consolidated reporting.
 - Developed dashboards and alerts for financial visibility and risk identification.

SKILLS

- Product Management:** Product Roadmap Strategy, User Research & Validation, Agile/Scrum, Flow Design, PRD Documentation, Market Analysis.
- AI & Technical:** AI Agent Frameworks, Prompt Engineering, Python, Machine Learning (Regression/Classification), AWS Cloud Practitioner.
- Data & Analytics:** Power BI, Advanced Excel, SQL, SAP, Financial Modeling & Reporting.
- Soft Skills:** Stakeholder Management, Team Leadership, Problem Solving, Pitching & Presentation.

EDUCATION

- Integrated B.Tech(CSE) - MBA(Finance & Data Analytics)**

Nirma University

2020 - 2025

 - Studied corporate finance, financial analysis, and data-driven decision-making.
 - Applied Excel, SAP, and Power BI in finance and analytics coursework.
 - Built foundation in investment analysis, risk management, and business strategy
